BUSINESS STATEMENT

COMPANY OVERVIEW

1. Company Background

Milliard Construction Ltd is a professionally structured construction and real estate management company established in September 2024 and headquartered in Kigali, Rwanda. The company was founded to respond to the increasing demand for quality construction services, organized real estate developments, and professionally managed properties within Rwanda's fast-growing urban economy.

Operating at the intersection of construction, real estate development, and materials supply, Milliard Construction Ltd adopts an integrated business model that enables efficiency, cost control, and delivery excellence. The company serves both private clients and public institutions, executing projects across residential, commercial, mixed-use, and institutional categories.

The company's leadership recognizes that Rwanda's urban growth requires modern, durable, and economically viable infrastructure solutions. As such, Milliard Construction Ltd is committed to developing projects that are technically sound, financially sustainable, and socially responsive.

2. Legal Structure and Ownership

Milliard Construction Ltd is incorporated as a limited liability company under the laws of the Republic of Rwanda. The company operates in full compliance with national regulations governing construction, engineering services, real estate development, and commercial operations.

Ownership and executive management are centralized under the Managing Director, ensuring:

Clear decision-making authority

Strong accountability structures

Efficient execution of strategic initiatives

The company maintains proper corporate governance practices, including financial reporting, statutory compliance, and professional ethics, which are essential for investor confidence and long-term sustainability.

3. Core Business Activities

Milliard Construction Ltd operates through four primary business pillars; each designed to complement the others and generate diversified revenue streams.

3.1

Construction and Engineering Services

The company provides end-to-end construction solutions, including:

Architectural design and planning

Structural and civil engineering

Project management and supervision

General contracting and construction execution

Projects are delivered in accordance with Rwanda construction standards, international best practices, and strict quality control procedures.

3.2 Real Estate Development and Property Management

Milliard Construction Ltd develops and manages a diverse portfolio of real estate assets, including:

Student housing facilities

Apartments and residential housing

Commercial and mixed-use buildings

The company emphasizes:

Strategic site selection

Functional design

Long-term asset value preservation

Professional property management

Recurring rental income from these assets forms a stable financial base for operations and investor returns.

3.3 Steel-Based Construction Materials Supply

To strengthen cost control and reduce supply chain risks, Milliard Construction Ltd operates a steel materials supply division, supplying:

Reinforcement steel bars

Structural
steel components

Steel sheets and fabricated elements

This division supports internal construction projects and supplies external contractors, generating independent revenue and enhancing operational resilience.

4. Competitive Advantage

Milliard Construction Ltd differentiates itself through several strategic advantages:

Integrated Business Model: Combining construction, development, and materials supply improves efficiency and cost predictability.

Local Market Expertise: Deep understanding of Kigali's real estate and construction dynamics.

Multidisciplinary Team: Experienced professionals across architecture, engineering, valuation, and property management.

Quality and Compliance Focus: Adherence to national standards and best practices.

Scalable Growth Strategy: Capacity to expand across multiple real estate segments.

These strengths enable the company to deliver projects on time, within budget, and to the expectations of investors and clients.

5. Location and Operational Base

Milliard Construction Ltd is strategically based in Kigali, Rwanda's economic and administrative hub. Kigali offers:

- Access to major infrastructure
- Proximity to government institutions and universities
- Strong demand for housing and commercial space
- Reliable logistics and transportation networks

This location supports efficient project execution and market access across the city and surrounding regions.

6. Client Base and Partnerships

The company serves a diverse client base, including:

- Private property developers
- Institutional clients
- Educational institutions
- Commercial investors

Milliard Construction Ltd actively collaborates with:

- Local authorities
- Professional consultants
- Material suppliers and logistics partners

These partnerships enhance project delivery capacity and reduce operational risk.

MISSION, VISION, AND CORE VALUES

Vision

To become the preferred and last-resort construction and real estate development firm in Rwanda and the wider East African region, recognized for reliability, technical excellence, sustainable development, and long-term value creation.

Milliard Construction Ltd envisions a future in which it plays a pivotal role in shaping Rwanda's urban landscape by delivering high-quality infrastructure that supports economic growth, education, and improved living standards. The company aspires to set benchmarks in construction quality, project execution, and property management, while maintaining a reputation for integrity and professionalism.

Mission

To provide reliable, high-quality architectural design, engineering, construction, and real estate management services that consistently meet client expectations, comply with national and international standards, and deliver sustainable financial returns.

Milliard Construction Ltd's mission is grounded in:

Understanding and responding precisely to client needs

Delivering projects on time and within budget

Applying sound engineering principles and innovative solutions

Ensuring
client satisfaction through transparency and accountability

Through disciplined execution and continuous improvement, the company seeks to build long-term relationships with clients, investors, and stakeholders.

Core Values

The operations, culture, and strategic decisions of Milliard Construction Ltd are guided by the following core values:

1. Stewardship

We recognize our responsibility to manage financial resources, land, materials, and human capital with care and accountability. Stewardship guides our commitment to:

Sustainable construction practices

Responsible financial management

Long-term asset preservation

This value ensures that projects deliver enduring benefits to investors, clients, and communities.

2. Transparency

We operate with openness and clarity in all our dealings. Transparency underpins:

Honest communication with clients and investors

Accurate financial reporting

Ethical procurement and contracting

By maintaining transparency, Milliard Construction Ltd builds trust and confidence among stakeholders.

3. Reliability and Loyalty

Reliability defines our promise to deliver on commitments, while loyalty reflects our dedication to clients, partners, and employees. This value is demonstrated through:

Consistent project delivery

Respect for contractual obligations

Long-term partnerships

We aim to
be a dependable partner in every engagement.

4. Integrity

Integrity is the foundation of our corporate identity. We conduct our business with:

Ethical decision-making

Compliance with laws and regulations

Zero tolerance for corruption or malpractice

Integrity safeguards the company's reputation and ensures sustainable growth.

Alignment with Strategic Objectives

The Vision, Mission, and Core Values of Milliard Construction Ltd are closely aligned with its strategic objectives, including:

Development of high-impact student housing

Expansion of diversified real estate assets

Vertical integration through materials supply

Delivery of consistent investor returns

These guiding principles ensure that growth is pursued responsibly, profitably, and in alignment with national development priorities.

Company History & Legal Status

1. Company History

Milliard Construction Ltd was founded in September 2024 in Kigali, Rwanda, with the strategic vision of addressing the rapidly expanding demand for quality construction and real estate development in the region. The company emerged from a market need for reliable, modern, and professional construction solutions—especially within the high-growth real estate and student housing sectors.

The founder, Mr. Agape Kelvin Beltrand, established Milliard Construction Ltd after identifying gaps in the market around quality, delivery reliability, design excellence, and student accommodation shortages linked to the growth of public universities in Kigali. The early conceptual phase of the business was marked by

client
consultations, feasibility studies, and operational structuring to ensure that the company entered the market with a clear strategy and measurable goals.

Since inception, Milliard Construction Ltd has built a diverse internal team consisting of architects, engineers, project managers, quantity surveyors, accountants, and legal professionals. This multidisciplinary strength positioned the company to offer end-to-end construction services—from planning, design, engineering, and procurement to project delivery and asset management.

The company's first operational focus area was securing development financing for its Kigali-based real estate and student housing projects. This strategic approach enabled Milliard Construction Ltd to simultaneously position itself as:

• A builder of large-scale real estate projects,

• A long-term asset manager and rental operator, and

• A supplier of steel-based construction materials in Rwanda.

2. Legal Status

Milliard Construction Ltd is a formal legal entity registered in the Republic of Rwanda under the Rwanda Development Board (RDB) and governed by Rwandan corporate and tax laws.

Key legal attributes include:

• Legal Form: Private Limited Company (Ltd)

• Ownership Structure: Privately held and founder-led

• Registration Authority: Rwanda Development Board (RDB)

• Year of Incorporation: 2024

• **Primary Business Activities**:

– Construction

– Project Management

– Real Estate Development & Leasing

– Supply of Steel-based Materials

Milliard Construction Ltd maintains full compliance with regulatory and statutory requirements relating to:

•

Corporate registration and renewal

• Tax filing and reporting

• Financial records management standards

• Employment and labor laws

• Environmental development guidelines

• Construction safety and building regulations

The company is structured to meet the requirements of national regulatory stakeholders, including:

• Rwanda Revenue Authority (RRA) — for tax compliance

• Rwanda Housing Authority (RHA) — for building and planning approvals

• Rwanda Utilities Regulatory Authority (RURA) — for infrastructure protection and coordination

Milliard Construction Ltd also operates under internal governance policies that promote professional accountability, ethical commercial practice, transparency, and client protection.
